

The SPOT LIFT PRO is fully pneumatic and can lift the front or the back of vehicles up to 2.5T and up to 1.5m high, effortlessly. With adjustable wheelbase pads, it enables use of the SPOT LIFT PRO with any vehicle width. Ideal for both car body and mechanical workshops.

Easy to fit under the vehicle
(measures 14 cm at the lowest position).

Articulated arm

Pneumatic control
up/down.

Steel pad with non-slip
rubber coating.

OPTION 4X4

Safety links in order to
support the vehicle after
lifting.

Pads with
adjustable height.

Directional wheels (x2) assist
the tool positioning in its lowest
setting.

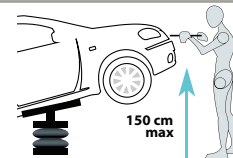

Coussin pneumatique de
qualité supérieure et haute
sécurité « **Continental** ».

- EN 1494-compliant jack.
- Stroke limiter, pressure relief valve and non-return valves included.

The SPOT LIFT Pro improves productivity by enabling the user to work in a more comfortable position.

Can prevent long term injuries to the back and knees by avoiding repetitive work whilst in a bad posture.
