

GPR GYS - DENT REMOVAL KIT USING GLUE

GLUE PULLING
REPAIR KITS

Ref. **085466** EUROPE *with isopropyl alcohol*
Ref. **085770** EXPORT *without isopropyl alcohol*

The GPR GYS adhesive dent removal kit complements traditional dent removal for all types of straightening of steel or aluminium exterior sheet metal. It requires no removal of trim or exterior covers. The glue used also makes it possible to work on hybrid and electric vehicles without disconnecting the battery, guaranteeing a fast and safe repair.

BENEFITS

- No stripping of sheet metal
- Reduced intervention time
- Limited vehicle downtime.
- No need to touch up paintwork
