

The easy-to-use battery powered staple gun helps you work quickly and accurately. By heating different types of stainless steel staples, it allows all plastic vehicle components (bumpers, spoilers, dashboards, headlights, etc.) to be repaired and reinforced.

FEATURES

- **Heating temperature:** 600°C.
- Rechargeable battery for cable-free operation and increased portability.
- **Adjustable staple head** (90° to 135°).
- A bright LED light on top of the unit for increased precision.

Indicator light:

Colour	State
Flashing green	On charge
Green	Standby, charging complete
Fixed blue	Normal use
Flashing red	Thermal protection
Red	Low battery

Supplied with 4 types of staples:

Staple type	Wire diameter	Quantity	Ref.
