

The USB-C/cigarette lighter cable, compatible with Power Delivery, ensures an optimized power supply from a suitable USB-C power source. Designed for use in vehicles, mains power, or with a compatible external battery, this accessory powers your 12 V equipment, such as portable cooler boxes, dashcams, and fans, and can also be used to recharge certain GYS devices.

Input	PD (Power Delivery)
Output	12 V / 5A max
Max power output	60 W max
